

Christoph Foulger

Senior Product Designer • UX/UI, Strategy, & Team Leadership

Boston, MA • iamxoph@me.com • iamchristoph.com • (801) 520-7345

PROFESSIONAL SUMMARY

Product designer with 15+ years across design, front-end development, and team management, focused on complex, workflow-heavy software for business users. Led and partnered on user research, from competitive reviews and heuristic audits to usability testing, and facilitated workshops to align product and engineering on the problem. Simplified data from multiple systems into dashboards, reports, and portals that drove measurable adoption. I mentor designers through critique and pairing, and I use AI to explore and validate ideas faster.

EXPERIENCE

Klaviyo • Senior Product Designer • Boston, MA (Hybrid) Mar 2022 – Sep 2025

- Partnered with the AI team on LLM-powered segment building; the winning design lifted segments created by 60% in A/B testing.
- Streamlined the segmentation creation experience, giving users direct access to data levers and reducing support tickets.
- Delivered reporting and analytics features, including interactive dashboards and custom report builders, shaped by a standing group of users interviewed throughout and aligned with product and engineering through workshops.
- Standardized the data visualization and component library with the Design Systems team, and helped shape the roadmap as a member of the Design System Advocacy team.
- Designed a self-service query tool with data engineers that won the company-wide H2 2024 Hackathon.

McAfee • Senior Product Designer • San Jose, CA (Remote) Jul 2021 – Mar 2022

- Partnered with teams across the US and India to redesign cybersecurity installation workflows, simplifying complex processes.
- Reimagined the e-commerce flow through a cross-functional sprint, increasing funnel conversion by more than 20%.
- Drove multi-account and device management design in close collaboration with user research, using qualitative and quantitative testing.
- Completed Deque's WCAG bootcamp and accessibility testing training using Axe DevTools.

Gravity Payments • Senior Product Designer • Seattle, WA (Hybrid) Apr 2017 – Jun 2021

- Principal UX designer and sole researcher on an agile engineering team, leading design strategy from ideation through launch across payment products.
- Architected the customer payments portal, driving a 200%+ increase in adoption, including partner and integration areas connected via the Gravity API.
- Designed and developed Windows POS and virtual terminal interfaces for web, tablet, and mobile.
- Founded Gravity's first Design System on Atomic Design principles, including an adaptive color system that met WCAG contrast standards.
- Implemented designs in React/TypeScript/CSS alongside engineers.

Gravity Payments • Marketing UI/UX Design Developer • Seattle, WA Jul 2015 – Apr 2017

- Refreshed the company brand identity through new design language, typography, and imagery, reinvigorating Gravity's market presence.
- Relaunched the company website on a custom WordPress CMS with a fully custom theme; managed web hosting and vendor relationships.
- Designed brand logos, icons, and marks for internal and external products.

Helix Education (Formerly Datamark) • Creative Production Manager

Salt Lake City, UT

Dec 2000 – Jun 2015

- Directed a team of 7-13 designers and front-end developers producing websites, emails, and display advertising for 100+ higher education institutions across the US, Canada, and UK.
- Introduced wireframing, site-mapping, and prototyping as standard UX practice across the team, elevating the quality and consistency of deliverables.
- Developed a responsive web process that increased website conversion rates by up to 40%.
- Spearheaded the launch of WordPress as the CMS of choice giving strategy teams access to test and update websites quickly, delivering stronger results for our largest clients.
- Partnered with Digital Strategy to integrate marketing automation via Marketo and HubSpot, advancing capabilities for our clients' success.

SKILLS & EXPERTISE
