

Christoph Foulger

Senior Product Designer • UX/UI, Strategy, & Team Leadership

Boston, MA · iamxoph@me.com · iamchristoph.com · (801) 520-7345

PROFESSIONAL SUMMARY

Strategic UX/UI design leader with 15+ years of experience spanning graphic design, product team management, and senior product design. Proven track record of building and leading design teams, establishing design systems from the ground up, and delivering high-impact product solutions across fintech, cybersecurity, and marketing automation. Adept at championing human-centered design principles, mentoring cross-functional teams, and translating complex problems into intuitive, accessible user experiences that drive business results.

EXPERIENCE

Klaviyo · Boston, MA (Hybrid)

Mar 2022 – Sep 2025

Senior Product Designer

- Partnered with the AI team on LLM-powered segment building; the winning design lifted segments created by 60% in A/B testing.
- Redesigned the segmentation creation experience, giving users direct access to data levers for precise audience targeting and reducing support tickets.
- Delivered end-to-end reporting and analytics features, including interactive dashboards and custom report-building tools that unified customer data for smarter eCommerce decisions.
- Partnered with the Design Systems team to standardize the data visualization and component library, accelerating consistency across product teams.
- Member of the Design System Advocacy team, helping shape the roadmap and assess the needs of designers across the organization.
- Collaborated with data engineers to design a self-service query tool featured as the winning presentation at the company-wide H2 2024 Hackathon.

McAfee · San Jose, CA (Remote)

Jul 2021 – Mar 2022

Senior Product Designer

- Partnered with cross-functional teams across the US and India to redesign cybersecurity installation workflows, simplifying complex processes into intuitive user experiences.
- Refactored design components to align with an updated design system, ensuring consistency and scalability across consumer security products.
- Contributed to marketing channel effectiveness improvements, streamlining user checkout flows to increase conversion rates.
- Attended WCAG bootcamp intensive and testing methodology by Deque.

Gravity Payments · Seattle, WA (Hybrid)

Apr 2017 – Jun 2021

Senior Product Designer

- Served as principal UX designer embedded in an agile engineering team, leading design strategy from ideation through launch across multiple payment processing products.
- Architected customer payments transaction portal, driving more than 200% increase in product adoption.
- Founded and maintained Gravity's first Design System, applying Atomic Design principles to establish a scalable, reusable component framework.
- Engineered an adaptive color system that met WCAG contrast ratio standards across all products and websites, embedding accessibility into the design foundation.
- Implemented designs directly in coding frameworks (React/TypeScript/CSS) alongside engineers, enabling seamless design-to-development handoff.

Gravity Payments · Seattle, WA

Jul 2015 – Apr 2017

Marketing UI/UX Design Developer

- Refreshed the company brand identity through new design language, typography, and imagery, reinvigorating Gravity's market presence.
- Relunched the company website on a custom WordPress CMS with a fully custom theme; managed web hosting and vendor relationships.
- Designed brand logos, icons, and marks for internal and external products.

Helix Education (Formerly Datamark) · Salt Lake City, UT

Dec 2000 – Jun 2015

Creative Production Manager

- Directed a team of 7-13 designers and front-end developers producing websites, emails, and display advertising for 100+ higher education institutions across the US, Canada, and UK.
- Introduced wireframing, site-mapping, and prototyping as standard UX practice across the team, elevating the quality and consistency of deliverables.
- Developed a responsive web process that increased website conversion rates by up to 40%.
- Spearheaded the launch of WordPress as the CMS of choice giving strategy teams access to test and update websites quickly, delivering stronger results for our largest clients.
- Partnered with Digital Strategy to integrate marketing automation via Marketo and HubSpot advancing capabilities for our clients' success.
